Totals from Fiscal year 24 so far - 1822 registrations. Office staff working hybrid schedule.  
Chris Speck: Any questions from other states that do things differently?  
Mike Greene: Yes, a few other states were interested in how Ohio operates and how to set up how we operate. May be interested in Ohio coming to speak to their boards/licensing staff.  
Chris Speck: Any states that have licenses on top of registration?  
Mike Greene: Yes, most states have licenses instead of registration which they also license individual technicians on top of the business registration.  
Keenan McKee: This is my last meeting. I am pleased with the changes that we have made to protect Ohio consumers. All of us having the same vision is important with the right assistance. The meetings felt empty at the beginning and didn't feel fair for our investigators. Hopefully the changes we made will help that and businesses register their businesses with insurance. I would love to see the point where there is an actual license that rewards the people who are doing the work to fix cars correctly. Thank you.
